Your Health Benefits

The Plan described in the following pages of this Booklet is a benefit plan of the Employer. These benefits are not insured with Aetna Life Insurance Company ("Aetna") but will be paid from the Employer's funds. Aetna will provide certain administrative services under the Plan as outlined in the Contract between Aetna and the Contractholder.

The following health expense benefits will apply to you only if you have elected such coverage by returning your signed form in accordance with the enrollment procedures of this Plan.

<p>This section explains the main features of the Plan. It includes a corresponding "Summary of Coverage."</p>

Summary of Coverage: Traditional Choice (High Option)

Booklet Base: Traditional Choice

Issue Date: January 1, 2000

Effective Date: January 1, 2000

Summary of Coverage

Employer: The Department of Defense
Nonappropriated Fund Health Benefits Program

ASC: 721027

SOC: Traditional Choice High Option

Issue Date: January 1, 2000

Effective Date: January 1, 2000

The benefits shown in this Summary of Coverage are available for you and your eligible dependents.

Eligibility

Your Coverage

You are in an Eligible Class if you are:

- a Regular Full-Time (RFT) or Regular Part-Time (RPT) civilian employee scheduled to work at least 20 hours per week, who is paid on the U.S. dollar payroll, and who is a U.S. citizen or resident alien living in the United States, the District of Columbia, Puerto Rico or Guam, or
- a Retiree who is eligible to continue participation in the Department of Defense Nonappropriated Fund Health Benefits Program.

Your Eligibility Date, if you are then in an Eligible Class, is the Effective Date of this Plan. Otherwise, it is the date you become part of an Eligible Class.

The following groups are not in an Eligible Class:

- Flexible employees.

Dependents

- **You may cover your:**
- **wife or husband, including a common-law wife or husband in those states that recognize common-law marriages.**
- **unmarried children under 19 years of age.**

-
- **unmarried children under age 25 who are full-time students in actual attendance at an accredited educational institution, are not working on a regular full-time basis, and depend on you for support.**
 - **any child over the maximum age who is determined to be incapable of self-support due to a handicap.**

Your children include:

- Your biological children.
- Your adopted children.
- Your step-children who either live with you or are dependent upon you for support.
- Any other child who is not your biological, adopted, or step-child, but who lives with you and is dependent upon you for financial support. Evidence proving dependency is required in the form of documentation of legal guardianship or inclusion of the child on your income taxes.

No person may be covered both as an employee and dependent and no person may be covered as a dependent of more than one employee.

Enrollment Procedure

Your enrollment packet will include a form to complete. This form will allow your Employer to deduct your contributions from your pay to cover your contributions for the plan you elect during enrollment.

IMPORTANT! You must sign, date and return the completed enrollment form to your Human Resources Manager **WITHIN 31 DAYS** of your Eligibility Date for you and your dependents to be covered. Your Human Resource Office representative will sign and date the enrollment form to acknowledge receipt. **If you don't sign and return your form within 31 days of your Eligibility Date, you may not elect Health Expense Coverage until the next open enrollment period established by your Employer.**

If you want DEPENDENT coverage for a newly eligible dependent (for example, you get married or have a baby), complete a new enrollment form (available from your Human Resources Manager) within 31 days of the Eligibility Date (i.e. date of marriage or baby's date of birth). When you elect DEPENDENT coverage, you must list all their names on the appropriate section of the enrollment form. **If you do not request DEPENDENT coverage within 31 days of the Eligibility Date, you may not elect Health Expense Coverage for such dependent until the next open enrollment period established by your Employer.**

Effective Date of Coverage

Your Coverage

Your coverage will take effect on the later to occur of:

- your Eligibility Date; or
- the date you return your signed group coverage enrollment form to your Human Resource Manager.

If you do not sign and return your form within 31 days of your Eligibility Date, you will not be able to elect coverage until the next open enrollment period established by your Employer.

Dependents

Coverage for your dependents will take effect on the date yours takes effect if, by then, you have enrolled for dependent coverage. You should report any new dependents. This may affect your contributions. If you do not do so within 31 days of any dependent's Eligibility Date, you will not be able to elect coverage for such dependent until the next open enrollment period established by your Employer.

- If you have EMPLOYEE COVERAGE ONLY and you request DEPENDENT coverage for a *newly eligible* dependent **within 31 days** of their Eligibility Date, the effective date of DEPENDENT coverage is the date that the dependent first became eligible for coverage under the Plan.
- If you have EMPLOYEE COVERAGE and want to change to DEPENDENT coverage but did not request such coverage **within 31 days** of this Eligibility Date, you will not be able to elect coverage for such dependent until the next open enrollment period established by your Employer.

Special Enrollment Procedures Under HIPAA

You will be able to elect coverage at any time after 31 days without waiting for the next open enrollment period if:

- you did not elect Health Expense Coverage for the person involved within 31 days of the date you were first eligible (or during an open enrollment) because at that time:
 - the person was covered under other "creditable coverage" as defined below; and
 - you stated, in writing, at the time you submitted the refusal that the reason for the refusal was because the person had such coverage; and
- the person loses such coverage because:
 - of termination of employment in a class eligible for such coverage;
 - of reduction in hours of employment;
 - your spouse dies;
 - you and your spouse divorce or are legally separated;
 - such coverage was COBRA like continuation and such continuation was exhausted; or
 - the other plan terminates due to the employer's failure to pay the premium or for any other reason; and
- you elect coverage within 31 days of the date the person loses coverage for one of the above reasons.

Coverage will be effect on the date of the change in status.

As used above, "creditable coverage" is a person's prior medical coverage as defined in

the Health Insurance Portability and Accountability Act of 1996 (HIPAA). Such coverage includes coverage issued on a group or individual basis; Medicare; Medicaid; military-sponsored health care; a program of the Indian Health Service; a state health benefits risk pool; the Federal Employees' Health Benefit Plan (FEHBP); a public health plan as defined in the regulations; and any health benefit plan under Section 5(e) of the Peace Corps Act.

Also, you will be able to elect coverage without waiting for the next open enrollment period if you did not elect, when the person was first eligible, Health Expense Coverage for:

- A spouse or child who meets the definition of a dependent, but you elect it later and within 31 days of a court order requiring you to provide such coverage for your dependent spouse or child. Such coverage will become effective on the date of the court order.
- Yourself, and you subsequently acquire a dependent, who meets the definition of a dependent, through marriage, and you subsequently elect coverage for yourself and any such dependent within 31 days of acquiring such dependent. Such coverage will become effective on the date of the election.
- Yourself, and you subsequently acquire a dependent, who meets the definition of a dependent, through birth, adoption, or placement for adoption, and you subsequently elect coverage for yourself and any such dependent within 31 days of acquiring such dependent. Such coverage will become effective on the date of the child's birth, the date of the child's adoption, or the date the child is placed with you for adoption, whichever is applicable.
- Yourself and your spouse, and you subsequently acquire a dependent, who meets the definition of a dependent, through birth, adoption, or placement for adoption, and you subsequently elect coverage for yourself, your spouse, and any such dependent within 31 days of acquiring such dependent. Such coverage will become effective on the date of the child's birth, the date of the child's adoption, or the date the child is placed with you for adoption, whichever is applicable.

Health Expense Coverage

Employees and Dependents

Your Booklet spells out the period to which each maximum applies. These benefits apply separately to each covered person. Read the coverage section in your Booklet for a complete description of the benefits payable.

If a hospital or other health care facility does not separately identify the specific amounts of its room and board charges and its other charges, Aetna will use the following allocations of these charges for the purposes of the group contract:

Room and board charges:	40%
Other charges:	60%

This allocation may be changed at any time if Aetna finds that such action is warranted by reason of a change in factors used in the allocation.

Payment (Out-of-Pocket) Limit which Applies to Expenses for a Person

When a person's Covered Medical Expenses for which no benefits are paid because of the deductible and the Payment Percentage reach \$ 2,000 in a calendar year, benefits will be payable at 100% for all of his or her Covered Medical Expenses to which this limit applies and which are incurred in the rest of that calendar year.

Pregnancy Coverage

Benefits are payable for pregnancy-related expenses of female employees and dependents on the same basis as for a disease.

In the event of an inpatient confinement, such benefits will be payable for inpatient care of the covered person and any newborn child for: a minimum of 48 hours following a vaginal delivery; and a minimum of 96 hours following a cesarean delivery. If a person is discharged earlier, benefits will be payable for 2 post-delivery home visits by a health care provider.

The expenses must be incurred while the person is covered under this Plan. If expenses are incurred after the coverage ceases, no benefits will be paid.

Prior Plans: Any pregnancy benefits payable by previous group medical coverage will be subtracted from medical benefits payable for the same expenses under this Plan.

Adjustment Rule

If, for any reason, a person is entitled to a different amount of coverage, coverage will be adjusted as provided elsewhere in the plan document on file with your Employer.

Benefits for claims incurred after the date the adjustment becomes effective are payable in accordance with the revised plan provisions. In other words, there are no vested rights to benefits based upon provisions of this Plan in effect prior to the date of any adjustment.

General

This Summary of Coverage replaces any Summary of Coverage previously in effect under your plan of health benefits. Requests for coverage other than that to which you are entitled in accordance with this Summary of Coverage cannot be accepted.

Additional Information Provided by The Department of Defense Nonappropriated Fund Health Benefits Program

Statement of Rights under the Newborns' and Mothers' Health Protection Act

Under federal law, group health plans and health insurance issuers offering group health insurance coverage generally may not restrict benefits for any hospital length of stay in connection with childbirth for the mother or newborn child to less than 48 hours following a vaginal delivery, or less than 96 hours following a delivery by cesarean section. However, the plan or issuer may pay for a shorter stay if the attending provider (e.g., your physician, nurse midwife, or physician assistant), after consultation with the mother, discharges the mother or newborn earlier.

Also, under federal law, plans and issuers may not set the level of benefits or out-of-pocket costs so that any later portion of the 48-hour (or 96-hour) stay is treated in a manner less favorable to the mother or newborn than any earlier portion of the stay.

In addition, a plan or issuer may not, under federal law, require that a physician or other health care provider obtain authorization for prescribing a length of stay of up to 48 hours (or 96 hours). However, to use certain providers or facilities, or to reduce your out-of-pocket costs, you may be required to obtain precertification. For information on precertification, contact your plan administrator.

Notice regarding Women's Health and Cancer Rights Act

Under this health plan, coverage will be provided to a person who is receiving benefits for a medically necessary mastectomy and who elects breast reconstruction after the mastectomy, for:

- (1) reconstruction of the breast on which a mastectomy has been performed;
- (2) surgery and reconstruction of the other breast to produce a symmetrical appearance;
- (3) prostheses; and
- (4) treatment of physical complications of all stages of mastectomy, including lymphedemas.

This coverage will be provided in consultation with the attending physician and the patient, and will be subject to the same annual deductibles and coinsurance provisions that apply for the mastectomy.

If you have any questions about our coverage of mastectomies and reconstructive surgery, please contact the Member Services number on the front of your ID card.

Health Expense Coverage

Health Expense Coverage is expense-incurred coverage only and not coverage for the disease or injury itself. This means that this Plan will pay benefits only for expenses incurred while this coverage is in force. Except as described in any extended benefits provision, no benefits are payable for health expenses incurred before coverage has commenced or after coverage has terminated; even if the expenses were incurred as a result of an accident, injury, or disease which occurred, commenced, or existed while coverage was in force. An expense for a service or supply is incurred on the date the service or supply is furnished.

When a single charge is made for a series of services, each service will bear a pro rata share of the expense. The pro rata share will be determined by Aetna. Only that pro rata share of the expense will be considered to have been an expense incurred on the date of such service.

Aetna assumes no responsibility for the outcome of any covered services or supplies. Aetna makes no express or implied warranties concerning the outcome of any covered services or supplies.

Comprehensive Medical Expense Coverage

Comprehensive Medical Expense Coverage is merely a name for the benefits in this section. It does not provide benefits covering expenses incurred for all medical care. There are exclusions, deductibles, copayment features and stated maximum benefit amounts. These are all described in the Booklet.

The Summary of Coverage outlines the Payment Percentages that apply to the Covered Medical Expenses described below.

NOTE: Make sure you, your dependents and your physician know about the certification requirement under your plan. This is especially important in case of an emergency if you are unable to obtain certification for yourself.

How To Obtain Certification

Certification of days of confinement can be obtained as follows:

If the admission is a **non-urgent admission**, you must get the days certified by calling the number shown on your ID card. This must be done at least 14 days before the date the person is scheduled to be confined as a full-time inpatient. If the admission is an **emergency admission** or an **urgent admission**, you, the person's **physician**, or the **hospital** must get the days certified by calling the number shown on your ID card. This must be done:

- before the start of a confinement as a full-time inpatient which requires an **urgent admission**; or
- not later than 48 hours following the start of a confinement as a full-time inpatient which requires an **emergency admission**; unless it is not possible for the **physician** to request certification within that time. In that case, it must be done as soon as reasonably possible. (In the event the confinement starts on a Friday or Saturday, the 48 hour requirement will be extended to 72 hours.)

If, in the opinion of the person's **physician**, it is necessary for the person to be confined for a longer time than already certified, you, the **physician** or the **hospital** may request that more days be certified by calling the number shown on your ID card. This must be done no later than on the last day that has already been certified.

Written notice of the number of days certified will be sent promptly to the **hospital**. A copy will be sent to you and to the **physician**.

If:

- a person becomes confined in a **hospital** as a full-time inpatient; and
- it has not been certified that such confinement (or any day of such confinement) is **necessary**.

Covered Medical Expenses incurred on any day not certified during the confinement will be paid as follows:

No benefits will be paid for any Hospital Expenses including charges for board and room.

If certification has not been requested and the confinement (or any day of such confinement) is **not necessary**:

No benefits will be paid for any Hospital Expenses including charges for board and room.

If certification has not been requested and the confinement (or any day of such confinement) **is necessary**:

Hospital Expenses incurred for board and room, up to the Excluded Amount (Penalty), will not be deemed to be Covered Medical Expenses.

Benefits for all other Hospital Expenses will be payable at the Payment Percentage.

- As to other Covered Medical Expenses:

Benefits will be paid at the Payment Percentage.

Whether or not a day of confinement is certified, no benefit will be paid for expenses incurred on any day of confinement as a full-time inpatient if excluded by any other terms of this Plan. However, if certification has been given for a day of confinement, the exclusion of services and supplies because they are **not necessary** will not be applied to expenses for **hospital** room and board.

Prescription Drug Expense Benefit

If a Prescription Drug is dispensed by a Preferred Pharmacy to a person for treatment of a disease or injury, a benefit will be paid, determined from the Benefit Amount section, but only if the Preferred Pharmacy's charge for the drug is more than the Copay or Fee per prescription or refill.

In an emergency situation only, a benefit will be paid determined from the Benefit Amount section, for a Prescription Drug dispensed by a Non-Preferred Pharmacy.

Benefit Amount

The Benefit Amount for each covered Prescription Drug or refill will be an amount equal to the Payment Percentage (100%) of the total charges in excess of the Copay or Fee per prescription or refill as shown in the Summary of Coverage. The total charge is determined by:

- the Preferred Pharmacy, including a Mail Order Pharmacy; and
- Aetna.

Any amount so determined will be paid to the Preferred Pharmacy on your behalf.

No benefit will be paid for a Prescription Drug dispensed by a Non-Preferred Pharmacy under this benefit section, except in an emergency situation. In an emergency situation, the benefit amount for each covered Prescription Drug or refill is equal to the Payment Percentage (100%) of the Preferred Pharmacy's charge for the drug, in excess of the Copay or Fee per prescription or drug.

If the prescriber does not indicate that a brand name drug has to be dispensed to fill a prescription and there is a generic equivalent available, but you decide you want the brand name drug, a Separate Brand Name Fee will have to be paid by you, in addition to any applicable copay. The amount of the Separate Brand Name Fee will be equal to the difference between the cost of the brand name drug and the generic equivalent. Therefore, the Separate Brand Name Fee will apply to any brand name drug dispensed unless:

- there is no generic equivalent to the brand name drug;
- the **preferred pharmacy** is unable to supply the generic drug at the time the **prescription** is presented; or
- the **prescriber** indicates that the generic drug should not be dispensed.

Limitations

No benefits are paid:

- For a device of any type unless specifically included above as Prescription Drugs.
- For any drug entirely consumed at the time and place it is prescribed.
- For less than a 30 day supply of any drug dispensed by a Mail Order Pharmacy.
- For the administration or injection of any drug.
- For contraceptive drugs, except oral contraceptives.
- For more than 48 dispensing kits per year for injectable drugs which are used for treatment of migraine headaches.
- For appetite suppressants and weight control drugs.
- For any smoking cessation aids or drugs. However, Nicorette may be covered as an "Other Medical Expense" under your Comprehensive Medical Expense Coverage if Aetna determines such aid is medically necessary to treat certain conditions accentuated by smoking.
- For cosmetic drugs.(e.g., Rogaine).
- For immunization agents (e.g., routine or travel related).
- For any "over the counter" drugs (non-prescription) unless specifically included in the definition of a prescription drug.
- For any prescription drugs obtainable without a prescription on an "over-the counter" basis.
- For more than a 30 day supply per prescription or refill. However, this limitation does not apply to a supply of up to 90 days per Prescription or refill for drugs which are provided by a Mail Order Pharmacy.
- For any refill of a drug if it is more than the number of refills specified by the Prescriber. Aetna, before recognizing charges, may require a new Prescription, or evidence as to need, if the Prescriber has not specified the number of refills, or if the frequency or number of Prescriptions or refills appears excessive under accepted medical practice standards.
- For any refill of a drug dispensed more than one year after the latest Prescription for it or as permitted by the law of the jurisdiction in which the drug is dispensed.
- For any drug provided by or while the person is an inpatient in any healthcare facility; or for any drug provided on an outpatient basis in any such institution to the extent benefits are paid for it under any other part of this Plan, or under any other medical or prescription drug expense benefit plan carried or sponsored by your Employer.

General Exclusions

General Exclusions Applicable to Health Expense Coverage

Coverage is not provided for the following charges:

- Those for services and supplies not **necessary**, as determined by Aetna, for the diagnosis, care, or treatment of the disease or injury involved. This applies even if they are prescribed, recommended, or approved by the person's attending **physician** or **dentist**.
- Those for care, treatment, services, or supplies that are not prescribed, recommended, or approved by the person's attending **physician** or **dentist**.
- Those for or in connection with services or supplies that are, as determined by Aetna, to be experimental or investigational. A drug, a device, a procedure, or treatment will be determined to be experimental or investigational if:

if required by the FDA, approval has not been granted for marketing; or

a recognized national medical or dental society or regulatory agency has determined, in writing, that it is experimental, investigational, or for research purposes; or

the written protocol or protocols used by the treating facility, or the protocol or protocols of any other facility studying substantially the same drug, device, procedure, or treatment, or the written informed consent used by the treating facility or by another facility studying the same drug, device, procedure, or treatment states that it is experimental, investigational, or for research purposes.

However, this exclusion will not apply with respect to services or supplies (other than drugs) received in connection with a disease; if Aetna determines that:

the disease can be expected to cause death within one year, in the absence of effective treatment; and

the care or treatment is effective for that disease or shows promise of being effective for that disease as demonstrated by scientific data. In making this determination Aetna will take into account the results of a review by a panel of independent medical professionals. They will be selected by Aetna. This panel will include professionals who treat the type of disease involved.

Also, this exclusion will not apply with respect to drugs that:

have been granted treatment investigational new drug (IND) or Group c/treatment IND status; or

are being studied at the Phase III level in a national clinical trial sponsored by the National Cancer Institute;

if Aetna determines that available scientific evidence demonstrates that the drug is effective or shows promise of being effective for the disease.

(This exclusion will not apply to "no fault" auto insurance if it: is required by law; is provided on other than a group basis; and is included in the definition of Other Plan in the section entitled Effect of Benefits Under Other Plans Not Including Medicare. In addition, this exclusion will not apply to: a plan established by government for its own employees or their dependents; or Medicaid.)

- Those for or related to any eye surgery mainly to correct refractive errors.
- Those for education or special education or job training whether or not given in a facility that also provides medical or psychiatric treatment.

Any exclusion above will not apply to the extent that coverage of the charges is required under any law that applies to the coverage.

These excluded charges will not be used when figuring benefits.

Coordination of Benefits

Other Plans Not Including Medicare

Some persons have group health coverage in addition to coverage under this Plan. Under these circumstances, it is not intended that a plan provide duplicate benefits. For this reason, many plans, including this Plan, have a "coordination of benefits" provision.

Under the coordination of benefits provision of this Plan, the amount normally reimbursed under this Plan is reduced to take into account payments made by "other plans".

When this and another health expenses coverage plan applies, the order in which the various plans will pay benefits must be figured. This will be done as follows using the first rule that applies:

1. A plan with no rules for coordination with other benefits will be deemed to pay its benefits before a plan which contains such rules.
2. A plan which covers a person other than as a dependent will be deemed to pay its benefits before a plan which covers the person as a dependent; except that if the person is also a Medicare beneficiary and as a result of the Social Security Act of 1965, as amended, Medicare is:

- secondary to the plan covering the person as a dependent; and
- primary to the plan covering the person as other than a dependent;

the benefits of a plan which covers the person as a dependent will be determined before the benefits of a plan which:

- covers the person as other than a dependent; and
- is secondary to Medicare.

3. Except in the case of a dependent child whose parents are divorced or separated; the plan which covers the person as a dependent of a person whose birthday comes first in a calendar year will be primary to the plan which covers the person as a dependent of a person whose birthday comes later in that calendar year. If both parents have the same birthday, the benefits of a plan which covered one parent longer are determined before those of a plan which covered the other parent for a shorter period of time.

If the other plan does not have the rule described in this provision (3) but instead has a rule based on the gender of the parent and if, as a result, the plans do not agree on the order of benefits, the rule in the other plan will determine the order of benefits.

4. In the case of a dependent child whose parents are divorced or separated:
 - a. If there is a court decree which states that the parents shall share joint custody of a dependent child, without stating that one of the parents is responsible for the health care expenses of the child, the order of benefit determination rules specified in (3) above will apply.

b. If there is a court decree which makes one parent financially responsible for the medical, dental or other health care expenses of such child, the benefits of a plan which covers the child as a dependent of such parent will be determined before the benefits of any other plan which covers the child as a dependent child.

c. If there is not such a court decree:

If the parent with custody of the child has not remarried, the benefits of a plan which covers the child as a dependent of the parent with custody of the child will be determined before the benefits of a plan which covers the child as a dependent of the parent without custody.

If the parent with custody of the child has remarried, the benefits of a plan which covers the child as a dependent of the parent with custody shall be determined before the benefits of a plan which covers that child as a dependent of the stepparent. The benefits of a plan which covers that child as a dependent of the stepparent will be determined before the benefits of a plan which covers that child as a dependent of the parent without custody.

5. If 1, 2, 3 and 4 above do not establish an order of payment, the plan under which the person has been covered for the longest will be deemed to pay its benefits first; except that:

The benefits of a plan which covers the person on whose expenses claim is based as a:

- laid-off or retired employee; or
- the dependent of such person;

shall be determined after the benefits of any other plan which covers such person as:

- an employee who is not laid-off or retired; or
- a dependent of such person.

If the other plan does not have a provision:

- regarding laid-off or retired employees; and
- as a result, each plan determines its benefits after the other;

then the above paragraph will not apply.

The benefits of a plan which covers the person on whose expenses claim is based under a right of continuation pursuant to federal or state law shall be determined after the benefits of any other plan which covers the person other than under such right of continuation.

If the other plan does not have a provision:

- regarding right of continuation pursuant to federal or state law; and
- as a result, each plan determines its benefits after the other;

then the above paragraph will not apply.

The general rule is that the benefits otherwise payable under this Plan for all expenses incurred in a calendar year will be reduced by all "other plan" benefits payable for those

expenses. When the coordination of benefits rules of this Plan and an "other plan" both agree that this Plan determines its benefits before such other plan, the benefits of the other plan will be ignored in applying the general rule above to the claim involved.

In order to administer this provision, Aetna can release or obtain data. Aetna can also make or recover payments.

When this provision operates to reduce the total amount of benefits otherwise payable as to a person covered under this Plan during a calendar year, each benefit that would be payable in the absence of this provision will be reduced proportionately. Such reduced amount will be charged against any applicable benefit limit of this Plan.

Other Plan

This means any other plan of health expense coverage under:

- Group insurance.
- Any other type of coverage for persons in a group. This includes plans that are insured and those that are not.
- No-fault auto insurance required by law and provided on other than a group basis. Only the level of benefits required by the law will be counted.

Coordination of Benefits Examples

The following information is provided to help clarify specific situations which may arise in the coordination of benefits when a person is covered under more than one plan.

Example One

A female employee works for a NAF employer and is covered under the DOD sponsored medical plan. She elects family coverage, and enrolls her husband as a dependent. At the same time, her husband works for a different employer (other than any branch of the US armed forces) and also elects family coverage under *his* employer sponsored medical plan. He names his wife as a dependent under such plan.

For the medical care of the female NAF employee the DOD sponsored medical plan of benefits will be considered primary. Her husband's plan (under which she is a dependent) would be considered secondary.

For the medical care of the husband, his employer's plan of benefits (under which he is covered as an employee) would be considered primary. The DOD sponsored medical plan of benefits would be considered secondary.

Example Two

If a retiree of a NAF employer:

- has post-retirement medical coverage under the DOD sponsored medical plan; and
- is also eligible for post-retirement coverage under another employer's medical plan (provided that the employer is not a branch of the US armed forces); and
- the same person is covered as a dependent spouse under a Tricare (military) plan;

For the medical care of a retiree who meets the conditions above, the plan of benefits considered to be primary will be either the DOD sponsored medical plan, or the plan sponsored by the person's other former employer. The plan in which the person has been enrolled for a greater length of time will be considered the primary plan.

The Tricare plan will always be the last plan to pay benefits when other plans of benefits are involved.

Effect of A Health Maintenance Organization Plan (HMO Plan) On Coverage

If you are in an Eligible Class and have chosen coverage under an HMO Plan offered by your Employer, you and your eligible dependents will be excluded from Health Expense Coverage on the date of your coverage under such HMO Plan.

If you are in an Eligible Class and are covered under an HMO Plan, you can choose to change to coverage for yourself and your covered dependents under this Plan. If you:

- Live in an HMO Plan enrollment area and choose to change coverage during a plan selection or an open enrollment period, coverage will take effect on the first day of the contract period which follows the plan selection or open enrollment period. There will be no rules for waiting periods or preexisting conditions.
- Live in an HMO Plan enrollment area and choose to change coverage when there is not an open enrollment period, coverage will take effect only if and when your Employer and Aetna give written consent.
- Move from an HMO Plan enrollment area or if the HMO discontinues and you choose to change coverage within 31 days of the move or the discontinuance, coverage will take effect on the date you elect such coverage. There will be no restrictions for waiting periods or preexisting conditions. If you choose to change coverage after 31 days, coverage will take effect only if and when the Aetna gives its written consent.

Any extensions of benefits under this Plan for disability or pregnancy will not always apply on and after the date of a change to an HMO Plan. They will apply only if the person is not covered at once under the HMO Plan because he or she is in a **hospital** not affiliated with the HMO. If you give evidence that the HMO Plan provides an extension of benefits for disability or pregnancy, coverage under this Plan will be extended. The extension will be for the same length of time and for the same conditions as the HMO Plan provides. It will not be longer than the first to occur of:

- the end of a 90 day period; and
- the date the person is not confined.

No benefits will be paid for any charges for services rendered or supplies furnished under an HMO Plan.

Effect of Prior Coverage

If the coverage of any person under any part of this Plan replaces any prior coverage of the person, the rules below apply to that part.

"Prior coverage" is any plan of group accident and health coverage that has been replaced by coverage under part or all of this Plan. It must have been sponsored by a NAF employer. The replacement can be complete or in part for the Eligible Class to which you belong. Any such plan is prior coverage if provided by another group contract or any benefit section of this Plan.

Coverage under any section of this Plan will be in exchange for all privileges and benefits provided under any like prior coverage. Any benefits provided under such prior coverage may reduce benefits payable under this Plan.

Effect of Medicare

Health Expense Coverage will be changed for any person while eligible for Medicare.

A person is "eligible for Medicare" if he or she:

- is covered under it;
- is not covered under it because of:
 - having refused it;
 - having dropped it;
 - having failed to make proper request for it.

These are the changes:

- All health expenses covered under this Plan will be reduced by any Medicare benefits available for those expenses. This will be done before the health benefits of this Plan are figured.
- Charges used to satisfy a person's Part B deductible under Medicare will be applied under this Plan in the order received by Aetna. Two or more charges received at the same time will be applied starting with the largest first.
- Medicare benefits will be taken into account for any person while he or she is eligible for Medicare. This will be done whether or not he or she is entitled to Medicare benefits.
- Any rule for coordinating "other plan" benefits with those under this Plan will be applied after this Plan's benefits have been figured under the above rules. Allowable Expenses will be reduced by any Medicare benefits available for those expenses.

Coverage will not be changed at any time when your Employer's compliance with federal law requires this Plan's benefits for a person to be figured before benefits are figured under Medicare.

DOD NAF Health Benefits Plan Primary to Medicare

Federal law requires that for certain covered individuals who elect the Plan as primary coverage, such plan benefits will be payable before any benefits available through Medicare. Medicare's benefits, if any, will be secondary to this Plan. ***Federal law applies to the following individuals:***

- an active employee regardless of age,
- a totally disabled employee if not terminated or retired,
- a dependent wife or husband, who is eligible for Medicare, of an active employee or a totally disabled employee if not terminated or retired, and
- any other covered individual for whom this Plan's benefits are payable because of compliance with such Federal law.

If this Plan is the primary coverage, Aetna will determine the benefits payable without considering the benefits for Medicare.

For any individual eligible for Medicare due to End Stage Renal Disease (ESRD), the

Uniform plan will be considered to be the primary plan of benefits for the first 30 months of a persons entitlement. Such plan benefits will be payable before any benefits available through Medicare. Medicare will become primary beginning with the 31st month of entitlement due to ESRD.

DOD NAF Health Benefits Plan Secondary to Medicare

A Medicare (*Government Exclusion*) approach is applicable to persons listed below who are eligible for Medicare:

- a retired employee,
- a totally disabled employee who is terminated or retired,
- a dependent, who is eligible for Medicare, of a retired employee or totally disabled employee who is terminated or retired, and
- any other covered dependent for whom this Plan's benefits are payable because of compliance with Federal law.

NOTE: When the Plan is secondary to Medicare, coverage will be provided under the provisions of the Traditional Choice Plan.

Under this Government Exclusion approach, this is how your Comprehensive Medical Expense Coverage changes if you are eligible for Medicare:

1. All health expenses covered under this Plan will be reduced by any Medicare benefits available for those expenses. This will be done before the health benefits of this Plan are figured.
2. Charges used to satisfy a person's Part B deductible under Medicare will be applied under this Plan in the order received by Aetna. Two or more charges received at the same time will be applied starting with the largest first.
3. Medicare benefits will be taken into account for any person while he or she is eligible for Medicare. This will be done whether or not he or she is entitled to Medicare benefits.
4. Any rule for coordinating "other plan" benefits with those under this Plan will be applied after this Plan's benefits have been figured under the above rules. Allowable Expenses will be reduced by any Medicare benefits available for those expenses.
5. A participant, otherwise eligible for Medicare, who is unable to receive the benefits of Medicare while residing outside the U.S., the Commonwealth of Puerto Rico, the Virgin Islands, Guam or American Samoa, will be entitled to medical expense benefits without reduction for Medicare. This provision only applies to your medical treatment performed outside the U.S. If you reside outside the U.S. or a territory, you should participate in Part B of Medicare. If you receive medical treatment in the U.S. this plan's benefits will be reduced as if you were enrolled in Part B.

General Information About Your Coverage

Termination of Coverage

Coverage under this Plan terminates at the first to occur of:

- When employment ceases. Ceasing active work will be deemed to be cessation of employment.
- When the group contract terminates as to the coverage.
- When you are no longer in an Eligible Class. (This may apply to all or part of your coverage.)
- When you fail to make any required contribution.

Your Employer will notify Aetna of the date your employment ceases for the purposes of termination of coverage under this Plan. This date will be either the date you cease active work or the day before the next premium due date following the date you cease active work. Your Employer will use the same rule for all employees.

If you are not at work due to disease, injury, temporary lay-off or leave of absence your employment may be continued until stopped by your Employer.

If you cease active work, ask your Employer if any coverage can be continued.

Dependents Coverage Only

A dependent's coverage will terminate at the first to occur of:

- Termination of all dependents' coverage under the group contract.
- When a dependent becomes covered as an employee.
- When such person is no longer a defined dependent.
- When your coverage terminates.

Continuation of Coverage For Surviving Dependents

If you die as an active employee covered under any part of this Plan, and had completed more than 90 days of participation in the Department of Defense Nonappropriated Fund Health Benefits Program, and if your dependents are enrolled as a dependent in the Plan on the day of your death, any Health Expense Coverage then in force for your dependents will be continued at no cost to them, for the first four months following your death.

If at the time of your death you had completed more than 90 days, but less than 15 years of participation in the Department of Defense Nonappropriated Fund Health Benefits Program, your covered dependents, including your spouse, will be eligible for up to 36 months of medical coverage through the Temporary Continuation of Coverage Program described on Pages 63-66 of this booklet. Four months of this coverage will be paid by your Employer. At the end of the four month period following your death, this coverage is available to your dependents at a cost of 102% of the total employer and employee premium.

If at the time of your death you had completed 15 or more years of participation in the Department of Defense Nonappropriated Fund Health Benefits Program, and were participating in an applicable defined benefit retirement plan, surviving dependents will, following the four months of employer-paid coverage, be required to make contributions toward the cost of their coverage equal to the contributions then being charged to active employees for like coverage. Coverage for your spouse will continue indefinitely, regardless of remarriage. Dependents acquired by your surviving spouse upon remarriage are precluded from coverage.

Under the above sections, any dependents' coverage (other than coverage for your spouse) will cease when any one of the following happens:

- A dependent ceases to be a defined dependent.
- A dependent becomes eligible for like coverage under this Plan.

If Health Expense Coverage is being continued for your dependents, your child born after your death will also be covered. The completed enrollment form must be returned to your Human Resources Manager within 31 days of the date the child is born.

Proof of claim may be given by your spouse or by the custodial guardian of a minor child. Benefits will be paid to the person providing the proof.

Children With Disabilities

Health Expense Coverage for your fully handicapped child may be continued past the maximum age for a dependent child if the child has not been issued a personal medical conversion policy.

Your child is fully handicapped if:

- he or she is not able to earn his or her own living because of mental retardation or a physical handicap which started prior to the date he or she reaches the maximum age for dependent children; and
- he or she depends chiefly on you for support and maintenance.

Proof that your child is fully handicapped must be submitted to Aetna no later than 31 days after the date your child reaches the maximum age.

Coverage will cease on the first to occur of:

- Cessation of the handicap.
- Failure to give proof that the handicap continues.
- Failure to have any required exam.
- Termination of Dependent Coverage as to your child for any reason other than reaching the maximum age.

Aetna will have the right to require proof of the continuation of the handicap. Aetna also has the right to examine your child as often as needed while the handicap continues at its own expense. An exam will not be required more often than once each year after 2 years from the date your child reached the maximum age.

Conversion of Medical Expense Coverage

This Plan permits certain persons whose Medical Expense Coverage has ceased to convert to a personal medical policy if you have been covered under this Plan for at least 3 months. No medical exam is needed. You and your family members may convert when all coverage ceases because your employment ceases or you cease to be in an eligible class. You may not convert if coverage ceases because the group contract has discontinued as to your medical coverage.

The personal policy may cover:

- you only; or
- you and all of your family members who are covered under this Plan when your coverage ceases; or
- if you die before you retire, all your family members, or your spouse only, who are covered under this Plan when your coverage ceases.

Also, if your own coverage continues, your dependents can apply if they cease to be a dependent as defined in this Plan.

You may convert when you become a retired employee. Conversion to a personal policy is not necessary if you qualify for continued Medical Expense Coverage after you retire. If you choose to continue Medical Expense Coverage after you retire, this conversion privilege will not again be available to you.

The personal policy must be applied for within 31 days after coverage ceases or would otherwise cease without a provision to continue coverage for retired employees. The 31 days start on the date coverage actually ceases even if the person is still eligible for benefits because the person is totally disabled.

Aetna may decline to issue the personal policy if:

- It is applied for in a jurisdiction in which Aetna cannot issue or deliver the policy.
- On the date of conversion, a person is covered, eligible or has benefits available under one of the following:

any other hospital or surgical expense insurance policy;

any hospital service or medical expense indemnity corporation subscriber contract;

any other group contract;

any statute, welfare plan or program;

and that with the converted policy, would result in overinsurance or match benefits.

No one has the right to convert if you have been covered under this Plan for less than 3 months. Also, no person has the right to convert if:

- he or she has used up the maximum benefit; or
- he or she becomes eligible for any other Medical Expense Coverage under this Plan.

The personal policy form, and its terms, will be of a type, for group conversion purposes:

- as required by law or regulation; or
- as then offered by Aetna under your Employer's conversion plan.

It will not provide coverage which is the same as coverage under this Plan. The level of coverage may be less and an overall Lifetime Maximum Benefit will apply.

The personal policy may contain either or both of:

- A statement that benefits under it will be cut back by any like benefits payable under this Plan after your coverage ceases.
- A statement that Aetna may ask for data about your coverage under any other plan. This may be asked for on any premium due date of the personal policy. If you do not give the data, expenses covered under the personal policy may be reduced by expenses which are covered or provided under those plans.

The personal policy will state that Aetna has the right to refuse renewal under some conditions. These will be shown in that policy.

If you or your dependent want to convert:

- Your Employer should be asked for a copy of the "Notice of Conversion Privilege and Request" form.
- Send the completed form to the address shown.

If a person is eligible to convert, information will be sent about the personal policy for which he or she may apply. If you are residing overseas at that time, you will not be eligible to convert unless you return to the United States within 31 days from the date your coverage under this Plan ceases.

The first premium for the personal policy must be paid at the time the person applies for that policy. The premium due will be Aetna's normal rate for the person's class and age, and the form and amount of coverage.

The personal policy will take effect on the day after coverage terminates under this Plan.

Type of Coverage

Coverage under this Plan is **non-occupational**. Only **non-occupational** accidental **injuries** and **non-occupational diseases** are covered. Any coverage for charges for services and supplies is provided only if they are furnished to a person while covered.

Conditions that are related to pregnancy may be covered under this Plan. The Summary of Coverage will say if they are.

Physical Examinations

Aetna will have the right and opportunity to have a physician or dentist of its choice examine any person for whom certification or benefits have been requested. This will be done at all reasonable times while certification or a claim for benefits is pending or under review. This will be done at no cost to you.

Legal Action

No legal action can be brought to recover under any benefit after 3 years from the deadline for filing claims.

Aetna will not try to reduce or deny a benefit payment on the grounds that a condition existed before a person's coverage went into effect, if the loss occurs more than 2 years from the date coverage commenced. This will not apply to conditions excluded from coverage on the date of the loss.

Assignments

Coverage may be assigned only with the written consent of Aetna.

Recovery of Benefits Paid

As a condition to payment of benefits under this Plan for expenses incurred by a covered person due to injury or illness for which a third party may be liable:

- The Plan shall, to the extent of benefits it has paid, be subrogated to (has the right to pursue) all rights of recovery of covered persons against:

such third party; or

a person's insurance carrier in the event of a claim under the uninsured or underinsured auto coverage provision of an auto insurance policy.

- The Plan shall have the right to recover from the covered person amounts received by judgment, settlement, or otherwise from:

such third party or his or her insurance carrier; or

any other person or entity, which includes the auto insurance carrier which provides the covered person's uninsured or underinsured auto insurance coverage.

- The covered person (or person authorized by law to represent the covered person if he or she is not legally capable) shall:

Recovery of Overpayment

If a benefit payment is made by Aetna, to or on behalf of any person, which exceeds the benefit amount such person is entitled to receive in accordance with the terms of the group contract, this Plan has the right:

- to require the return of the overpayment on request; or
- to reduce by the amount of the overpayment, any future benefit payment made to or on behalf of that person or another person in his or her family.

Such right does not affect any other right of recovery this Plan may have with respect to such overpayment.

Reporting of Claims

A claim must be submitted to Aetna in writing. It must give proof of the nature and extent of the medical expense. You may obtain claim forms through your Employer or through Aetna Member Services.

All claims should be reported promptly. The deadline for filing a claim for any benefits is 90 days after the date of the loss causing the claim.

If, through no fault of your own, you are not able to meet the deadline for filing claim, your claim will still be accepted if you file as soon as possible. Unless you are legally incapacitated, late claims will not be covered if they are filed more than 2 years after the deadline.

Payment of Benefits

Benefits will be paid as soon as the necessary written proof to support the claim is received.

All benefits are payable to you. However, this Plan has the right to pay any health benefits to the service provider. This will be done unless you have told Aetna otherwise by the time you file the claim.

This Plan may pay up to \$ 1,000 of any benefit to any of your relatives whom it believes fairly entitled to it. This can be done if the benefit is payable to you and you are a minor or not able to give a valid release. It can also be done if a benefit is payable to your estate.

Records of Expenses

Very important are:

Additional Provisions

The following additional provisions apply to your coverage.

- You cannot receive multiple coverage under this Plan because you are connected with more than one Employer.
- In the event of a misstatement of any fact affecting your coverage under this Plan, the true facts will be used to determine the coverage in force.

This document describes the main features of this Plan. Additional provisions are described elsewhere in the Plan Document on file with your Employer. If you have any questions about the terms of this Plan or about the proper payment of benefits, you may obtain more information from your Employer.

Your Employer hopes to continue this Plan indefinitely but, as with all group plans, this Plan may be changed or discontinued as to all or any class of employees.

- as to diagnosis, care and treatment be no more costly (taking into account all health expenses incurred in connection with the service or supply) than any alternative service or supply to meet the above tests.

In determining if a service or supply is appropriate under the circumstances, Aetna will take into consideration:

In determining the reasonable charge for a service or supply that is:

This program does NOT apply to participants who qualify for continued medical/dental coverage at no cost to them after retirement (that is, they retire upon an immediate annuity and have 15 years participation in the group plan).

Eligible Employees

Active/Retired employees and their dependents are eligible for the Temporary Continuation of Coverage Program provided:

The following information indicates who is eligible for "single" rate coverage and who is eligible for "family" rate coverage. The applicable contribution (premium) rates are indicated.

Continuation of Contributions

General Rules

The single rate will be charged to anyone who wants coverage only for himself/herself and is eligible for that coverage because of their individual status. Otherwise, the family rate will be charged.

Monthly continuation rates for individuals who want to continue their participation in the group medical program are established as follows:

1. an employee who previously had single coverage;

8. a spouse covered under the single rate must change to the family rate in order to cover a newborn child; cannot cover a new dependent other than through birth or adoption.

Single coverage not allowed:

1. Death of employee; spouse and one child could not be individually covered as two singles. (Except as noted under "Single Rate," item 7 above.)
2. Terminated employee; spouses of underage child who both want coverage could not apply for single coverage individually.

Adjustments	Contribution rates will be adjusted at the same time that active employee contribution rates are adjusted.
Conversion	Participants may convert to an individual policy with Aetna, either at the point of termination of employment or later, at the end of the 18-month continuation period. The participant will be notified of the conversion privilege closer to the end of the continuation period.
Termination Provisions	<p>The Program will discontinue as to a participant at the earliest to occur of the following:</p> <ul style="list-style-type: none"> • When the participant fails to make required contributions by the due date; • When the participant becomes eligible for Medicare benefits; • When the participant becomes eligible under another group coverage medical plan. An exception is made if the new plan contains pre-existing conditions which limit coverage. • When the participant again becomes eligible for the regular plan of Medical Expense Coverage. • When the 18 months has elapsed since the participant's regular coverage terminated (36 months for surviving dependents or disabled employees). • When the plan terminates.
Additional Information	<p>The Temporary Continuation of Coverage Program is NOT the same as the Conversion of Medical Expense Coverage Privilege. The major differences between the two programs are shown next. See the individual sections for details on eligibility.</p> <p>The Conversion Privilege allows eligible participants to convert to an INDIVIDUAL medical expense policy <i>without medical examination</i>. This coverage is not the same as that provided under the group plan.</p> <p>The Temporary Continuation of Coverage Program applies to eligible participants who are allowed to "continue" in the <u>GROUP</u> Medical Plan but who pay 102% of the combined Employer/participant contribution rate for whichever continuation plan is selected. Dental Expense Coverage is NOT included. The Temporary Continuation Program is available worldwide. Single and Family rates are available based on the criteria established in this section.</p> <p>The 18-month continuation period does not apply to persons who are eligible for Medicare.</p> <p>Participation in this program will not count toward accumulated active participation in the plan or qualification for retiree coverage.</p>

Temporary Continuation of Coverage for Employees who are Totally Disabled

Employees who are totally disabled when their NAF HBP medical coverage ends will be eligible for continuation of medical coverage for up to 36 months from the date medical coverage ends. The cost of this medical coverage depends on the length of time covered under the Plan. Employees in the Plan for less than 5 years pay 102% for 36 months of coverage, including dependents. Employees in the Plan for 5 or more years will be covered for 12 months with no payment of premiums, then will pay 102% for the next 24 months, including dependents.

The words “totally disabled” mean that due to injury or disease, you are not able to engage in your customary occupation and are not working for pay or profit.

To be eligible for temporary continuation of coverage under the disability provisions, the employee’s attending physician must provide evidence of the disability to the Human Resources Office at Aetna. You must submit proof of total disability within 60 days of the date coverage terminated.

The temporary disability coverage for the employee and dependents will cease to apply when the first of the following occurs:
